So awkward to have to ask for the background information but here is the information from Kimberly Williams (one of the three nominations from Curyung).

Curyung (Thomas Tilden) has put forward the following:

Kim Williams - Tribal Council Member for Curyung
Billy Maines - Environmental Coordinator for Curyung
Courtney Gomez - Tribal Council member for Curyung

I think people misunderstood our letter - I think they think that we want three from each tribe. That is how I read the message from Billy. If we can accommodate everyone I think we should.

If I get more from Courtney or Billy I will send it to you.

Thanks - Tami

> Hi Billy, Thank you for the heads up. I hope you had a great weekend and I hope your fearless leader made it safely back home. I have Curyung on my list of tribes that have requested consultation and I have you designated as my point of contact. In regards to the Intergovernmental Technical Review Team, even though I know all of you, it would help if you would include the information below with the nominations from Curyung. Since I will be on annual leave April 11-25, I would ask that you send the information directly to Rick Parkin. Please confirm that the nominees either work for a Tribal Government or have been officially designated to represent their tribal government for this effort? Please also include a short write-up for each person, describing their background, experience, education, employment and any other information that provides the basis for their knowledge of the fish resources in Bristol Bay and the ecological factors that support the fishery. If Curyung de

cides to

nominate any Elders please include that information as well. I understand the three of you are not quite "elders" - but maybe "elders in training." :) If you would like to talk further about the purpose of the intergovernmental technical team or my expectations about the role team members will play, please contact Rick Parkin at 206-553-8574. Also for now I guess I am the contact person for the process. We do want to be involved, of course, in the consultation process from the beginning and throughout. As soon as I can catch up to Tom, I will get his signature on the forms and send them to you. Thanks for your help in this critical matter and

have a great week-end. Billy -----Original Message----- From: Fordham.Tami@epamail.epa.gov
